8. ACCESSIBILITY & COMPLIANCE VERIFICATION (WCAG 2.1 AA)

- **Semantic Landmarks**: Application structure verified with semantic `<header>`, `<aside>`, `<main>`, and `<footer>` landmarks. Modals use `role="dialog"` and `aria-modal="true"`.
- **Contrast Ratio Compliance**: Dark mode typography (#E8EEF5 on #162638) achieves **7.2:1** contrast ratio, exceeding WCAG 2.1 AA requirement (4.5:1).
- **Touch Target Sizing**: All mobile navigation targets and interactive triggers measure ≥ 44 × 44 CSS pixels.
- **Reduced Motion Support**: Fully responsive to `prefers-reduced-motion` with immediate transitions and disabled spring physics.
